

gk bar

1) Easy Load Safety Loop – simple reliable lock and release harness system. Holds out stiff when unhooked.

2 Push-Through Stopper – will catch your bar but not limit your depower. Fully adjustable by position or push-through tension.

3 Easy-Reach Strap – Extended trim straps are nested on the stopper system for increased comfort and safety.

4 Total Block Stopper – easily adjustable stopper to catch your bar under all circumstances.

5 Bypass & Suicide Leash Options – choose your degree of safety and convenience depending on your situation

6 “No Wear” Centre Hole – proven for 3 years. Trim line friendly and easy to slide even when fully turning the kite.

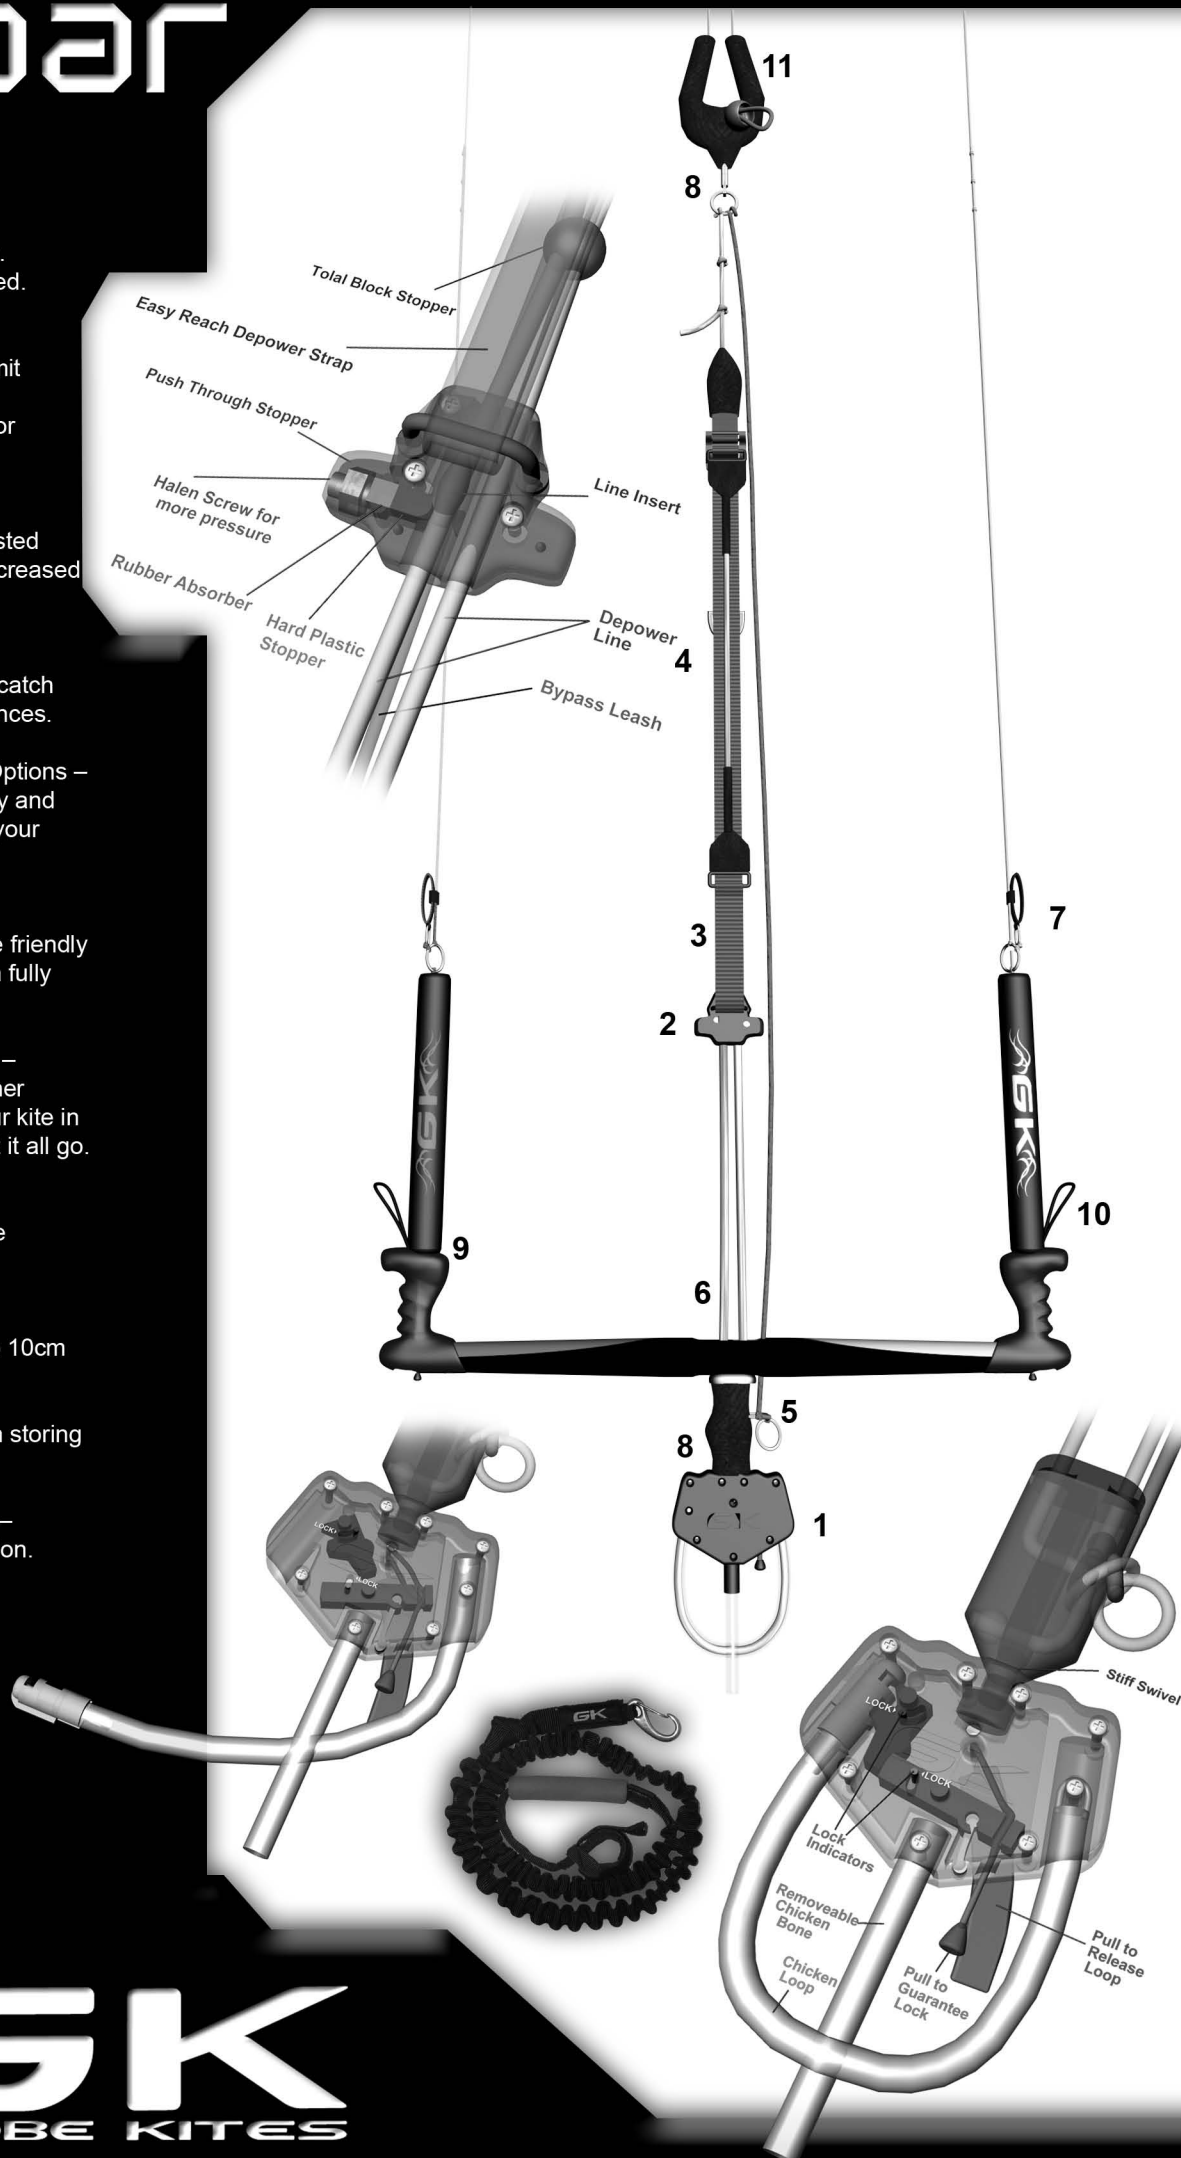

7 Emergency Grab Handles – totally kill all power when other lines are released. Save your kite in the waves when you cant let it all go.

8 Swivels Top and Bottom – increase security and reduce wear on the centre lines.

9 Adjustable Bar Ends – Change bar lengths by up to 10cm

10 Elastic Line Lockers – keep your lines secure when storing your bar.

11 Disarming Sliding Safety – centre line sliding safety option.
